GRAPES, from their most healthful properties, give ROYAL its active and principal ingredient

ROYAL

Baking Powder
Absolutely Pure

It is economy to use Royal Baking Powder. It saves labor, health and money. Where the best food is required no other baking powder or leavening agent can take the place or do the work of Royal Baking Powder.

RETALIATION

Threatened Senate Insurgents--Duty on Coal, Lumber and Other Southern Products Demanded.

The warfare of the South against New England in the shaping of the tariff bill reached an acute stage Wednesday when Senators Elkins and Scott, of West Virginia, held a conference with members of the House. Among the Representatives present were: Langley, of Kentucky; Hughes, West Virginia; Sloop, of Virginia; Humphreys, of Washington; Mondell, of Wyoming; Austin, of Tennessee; and Wheeler, of Pennsylvania. It was decided at this coalition conference that unless the leaders of Congress consent to higher duties on coal and lumber and other products of the South the "insurgents" will retaliate by combining with the Democrats to force down the duties on shoes, cutlery and other products of New England.

Charged With Murder Done Many Years Ago.

Charged with the murder of Rose Tritt, at Sandford, near Terre Haute, Ind., thirty-two years ago, Sylvester Burham is to be arrested in Texas. He is said to be a wealthy ranch owner. He was a laborer on her father's farm and was madly in love with the girl. She and her family declined to receive him as a suitor. One night he slipped into the girl's room, cut her throat, rolled her body in a carpet and set fire to the house.

Tritt and his wife escaped and the body of their daughter was found in the charred carpet. The laborer disappeared. According to the police he joined the Navy and afterward established himself in Texas.

Sues Wolfe County.

Elias Shuckey, an attorney of Hazel Green, brought suit in the Circuit Court against Wolfe county for \$3,000 damages for Joe Culberson, who fell through a wooden bridge across Red river and broke his right leg.

Everybody's friend--Dr. Thomas' Electric Oil. Cures toothache, earache, sore throat. Heals cuts, bruises, scalds. Stops any pain.

New High Record for Wheat.

New high record marks for the season for all deliveries of wheat were recorded on the Board of Trade when the May option sold at \$1.20; and the July at \$1.08 per bushel. Reports of damage by "winter killing" to the crop in Ohio and Indiana were largely responsible for the upturn.

Well, He May.

Gov. Wilson is hesitating long about pardoning Taylor and Finley before trial. And well he may. The moment he turns them loose from prosecution, for a crime every one knows they knew about and prepared for, he will lose the good opinion of many who give him credit for sincerity for advocating law.--Hopkinsville Kentuckian.

Funds for Public Buildings.

Money to the amount of \$100,000 may be borrowed by the Secretary of the Treasury on the credit of the United States for the purpose of erecting public buildings, which are authorized by Congress for cities having a population of 5,000 or more people, if the bill recently introduced by Senator Scott, of West Virginia, becomes a law. For the purpose the Secretary of the Treasury is authorized to issue 2 per cent. coupons or registered United States bonds. The bonds are to be exempt from taxes.

Chops Off Fowl's Heads.

Mr. Dorsey McClure, Carlisle, Ky., says: "Chamberlain made its appearance in my flock of two hundred White Leghorns. I gave them Bourbon Pottery Care, after chopping off the heads of six fowls that were made to work. I did not lose another fowl." Sold by W. S. Lloyd.

Must Acknowledge Claims.

Because of the alleged practice of railroad companies engaged in interstate commerce of delaying the acknowledgment of claims made against them for overcharges, loss, damage or injury to property committed to their care, and frequently letting the adjustment of claims run into months and years, Senator Taylor, of Tennessee, has introduced a bill providing that carriers shall acknowledge all such claims within ten days from their receipt, and that they shall pay all lawful claims within ninety days from their receipt.

Too Much Tobacco.

A special from Glasgow, Ky., says: "The farmers of this section are giving the following unique warning through the local papers. It says: 'Farmers should not forget that they cannot eat tobacco or feed it to their stock. If every available acre of land is put in the weed all the organizations on earth cannot hold up the price. Twenty-six States in the Union are now making a desperate struggle to raise all the tobacco they can to the neglect of corn, wheat, oats, rye, potatoes and all other crops. Corn is high and is easier raised than tobacco, and why that crop should be neglected this year in favor of tobacco is a puzzle. Corn is the staff of life in Kentucky, and people should know that it means much wealth to the State.'"

The Wisconsin Senate defeated the county unit local option bill.

ON TRIAL

FOR KILLING ON HIGH SEAS.

Influential Men Defending Joseph E. Gardner, Kentucky Boy, at San Francisco.

At San Francisco, March 31, Joseph E. Gardner, son of a Kentucky farmer, and a nephew of Judge Edward C. O'Rear, Chief Justice of the Kentucky Court of Appeals, faced a jury in the United States Circuit Court of Appeals on a murder charge. He is accused of killing Joseph Cordova, a cloried boat steerer on the whaler B. W. head, on which young Gardner slipped before the mast, sailing from this port in 1908. The prisoner was represented by attorneys Will A. Young and Henry R. Prewitt, both of Kentucky, sent out by Gardner's father.

The fight which resulted in the death of Cordova took place in the northern seas, according to witnesses. Alex. Peterson, a member of the Bowhead's crew, stated that Gardner refused to obey an order given by Cordova, and after hot words, struck the boat steerer with his fist. Cordova knocked the youth down and beat and kicked him as he lay on the deck. They were separated, but a few minutes later Gardner came up behind Cordova and struck him over the head with a heavy stick, inflicting injuries which caused death some hours later.

Painters Walk Out When Request Is Refused.

About 40 union painters of Lexington who demanded an increase in their pay from 25 to 30 cents an hour, which was refused by the contractors, walked out Thursday and say they will not return until the raise is given them. The contractors affected by the strike say they will not give the increase and that they have no contracts now that will suffer as the result of the painters' quitting.

Banner Option County.

Henry county, Ind., previously "dry" by reorganization, Wednesday gave the "dry" forces a majority of 2,416 in a county option election. This is the largest "dry" majority yet given under the county option law.

Object to Strong Medicines.

Many people object to taking the strong medicines usually prescribed by physicians for rheumatism. There is no need of internal treatment in any case of muscular or chronic rheumatism, and more than nine out of every ten cases of the disease are of one or the other of these varieties. When there is no fever and little (if any) swelling, you may know that it is only necessary to apply Chamberlain's Liniment freely to get quick relief. Try it. For sale by R. H. White & Co., Druggists. 39-41.

Bishop Vincent's Wife Dies.

After an illness extending over two years, Mrs. John H. Vincent, wife of Bishop Vincent, of the Methodist Episcopal Church and Chancellor of Chautauque Institution, died at her home in Indianapolis, Ind., on March 31.

To Inspect Lumber For New State Capitol Furniture.

Edward Schmiedeknecht, of Louisville, has been commissioned by the State Board of Capitol Commissioners to go to the factory of the Wallager Manufacturing Company, at Milwaukee, Wis., and inspect every stick of timber that is put into the furniture for the Kentucky State Capitol. --Louisville Times.

BIBLE SCHOOL CHAIR

Prof. W. F. Smith New Member of Faculty in College of the Bible.

A new chair of Bible School Pedagogy was created at a meeting of the Executive Committee of the College of the Bible on Thursday, and Prof. W. F. Smith, of the Morehead Normal School, was elected to it. Prof. Smith takes his place in September for the session of 1909-10.

The chair of Bible School Pedagogy has been endowed through the joint efforts of the Sunday Schools of the Christian Churches of Kentucky. This is the centennial year of the Christian Church, and the Kentucky Sunday Schools underwent as their memorial this commendable work which has been so satisfactorily completed as to enable the progressive step consummated.

Not only Prof. Smith well known as one of the ablest educators in the state, but he has also been prominently connected with the Sunday School work throughout Kentucky. His accession is a valuable addition to the already strong faculty of the College of the Bible.

Largest Crop of Tobacco in Years.

Commissioner of Agriculture M. C. Rankin in his first crop report bulletin for 1909, being a statement of conditions throughout the State up to April.

"The percentages for corn and tobacco acreage are prospective. The prospect is for the largest tobacco crop in many years for both Barley and dark, and an average corn crop will be planted."

"What is not as good as last year, but with favorable weather it will make a fair yield."

"Live stock wintered well, and the prices are all fairly good, horses and mules being high. The present prospect is for a good peach crop."

A Sure Cure.

Wm. Manlove, Tipton, Ind., says: "I had cholera in my herd and did not lose a hog after giving them Chamberlain's Colic, Cholera Remedy. In my judgment this medicine is a sure cure for hog cholera." Sold by W. S. Lloyd.

Will Test New School Law.

At Hopkinsville, Ky., suit was filed by the Christian County Board of Education against County Judge Prowse and members of the Fiscal Court, praying for a mandamus forcing them to meet at once and make a tax levy to provide the \$10,000 asked for for the support of schools as provided by the new school law. The Fiscal Court refused to levy the tax, claiming the school law was unconstitutional.

The suit is to test the new law, and is of State-wide importance.

Negro Students Denied.

Two colored students, dismissed from Grand Rapids, Mich., veterinary college, following the objection of white students to their presence, were denied a writ of mandamus by the Supreme Court, to compel the college to let them pursue their studies. The court held that a private corporation could not be mandamus to compel it to fulfill obligations under a contract with an individual.

Many ills come from impure blood. Can't have a pure blood with faulty digestion, lacy liver and sluggish bowels. Burdock Blood Bitters strengthens stomach, bowels and liver, and purifies the blood. 39-41.

DISTRESS FROM

UPSET STOMACH.

Also Misery from Indigestion Vanishes 5 Minutes Later.

Take your sour stomach--or maybe you call it indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter--take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pape's Diapiesin and let you eat one 25-grain Triangle and see if within five minutes there is left any trace of your stomach trouble.

The correct name for your trouble is Food Fermentation--food souring; the Digestive organs become weak, there is lack of gastric juices; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in the bowels, tenderness in the pit of the stomach, bad taste in the mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness and many other similar symptoms.

If your appetite is tickle, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause--fermentation of undigested food.

Prove to yourself, after your next meal, that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapiesin. 35-41.

Rheumatism.

More than nine out of ten cases of rheumatism are simply rheumatism of the muscles, due to cold or damp weather or chronic rheumatism. In such cases no internal treatment is required. The free application of Chamberlain's Liniment is all that is needed, and it is certain to give quick relief. Give it a trial and see for yourself how quickly it relieves the pain and soreness. Price 25 cents; large size, 50 cents. Sold by R. H. White & Co., Druggists. 39-41.

HUMBLE BEGINNING

For Distinguished People. One in Civic Affairs and One in Music.

In a humble school-house in the country town of St. Peter, Minn., a little boy and a little girl went to school over twenty-five years ago. They were like most of the other children--sons and daughters of natives of Sweden. The atmosphere of the teacher must have been inspiring, at least to those two; for though their study there marked almost the limits of their education, one of them, Gov. John A. Johnson, of Minnesota, has won the highest honors of his Commonwealth, and the other, Olive Fremstad, has come to be known as the greatest soprano now in the American grand opera.

The fact that she is to appear at the MAY MUSIC FESTIVAL to be held in Louisville May 6, 7 and 8 has added interest to the early struggles of Fremstad, and has shown that to win artistic laurels takes just as much pluck as to win them anywhere else. Her parents were poor, and her musical talent was shown first in teaching. Then, finally she took the great step and went to New York without money and without prospects, determined to study music and to win a place somewhere.

Nelson Bishop Pardoned.

Governor Wilson on Wednesday granted a pardon to Nelson Bishop, of Morgan county, who was sentenced to serve two years in State prison for voluntary manslaughter. Sentence was passed in June, 1908. Bishop shot and killed D. S. Whitaker.

Bob is About Right.

Commonwealth's Attorney Bob Franklin declined to attend the hearing in the matter of the surety bond of Taylor and Finley, having participated in one three of the sort. Commonwealth's Attorney Bob is about right. The pardons will be forthcoming, hearings or no hearings, evidence or no evidence, with Yontsey alone to bear the punishment, which, though rightfully falling on him, ought to be shared by the conspirators. --Owensboro Messenger.

Time will reveal whether the pardons cover.

Republicans Nominate.

The Republicans of the Eleventh Judicial district met in convention at Lebanon, Ky., and nominated Hon. John W. Lewis, of Springfield, for Circuit Judge, and Hon. J. H. Graham, of Greenburg, for Commonwealth's Attorney.

MORE IN MICHIGAN.

Michigan has 83 counties, of these, 11 have previously been "dry." On Monday elections were held in 27 counties to decide on the manufacture and sale of liquors; 20 voted "dry," 7 "wet."

We went to press before City Council met last night. Indications are that a contract will be let for plans and specifications for a sewerage system and in due time the voters of the city will decide whether we are to have a sewer. Progress in our town is the outlook.

Circuit Court convenes next Monday. Forgetting names, places, date and facts will now be in order for some chaps who know some things about which the grand jury will want information. We have heard that it is really surprising how many men have thinkers out of order.

IT IS A GO.

On Saturday afternoon there was another meeting relative to the Fair. The committee reported that shares aggregating \$5,200 had been subscribed for. Articles of incorporation were adopted and have been filed. The official title is Montgomery County Fair Association. The committee will continue efforts to complete \$10,000, a meeting of stockholders will be announced for election of officers and the choice of a location of grounds.

GREAT DAY IN BOYD.

On Monday a local option election was held in Boyd county including Ashland and Catlettsburg. The temperance people won in Ashland by 107 votes, and in the county by 209 votes. Catlettsburg voted for whisky by a majority of 22. The election in Catlettsburg will be contested, according to report.

On July 1, 26 saloons will close. Ashland has about 10,000 population.

The days of the saloon in Kentucky are numbered. We expect violations of the law.

HARRIMAN ON GOVERNMENT AND RAILROADS.

Mr. E. H. Harriman, the first of American railway magnates, has recently expressed the opinion that all of the railroads of the country ought to be consolidated into one enormous corporation under one general management with careful government supervision. He also expressed the opinion that such a revolution in the conduct of the country's transportation system would immediately pave the way for extensions and improvements, and bring about a period of great prosperity and great efficiency in the industrial organization.

The third lecture in the Transylvania Extension Course was given Tuesday night, the 13th, at the Baptist Church. Prof. Jefferson will speak on "This Wonderful Life of Ours." Business Men's Club.

The attendance at the Business Men's Club on Monday evening was larger than usual, thus indicating an increased interest.

No new business was taken up. The Membership Committee reported that 99 new or renewed fees had been collected. C. D. Grubbs was continued to further confer relative to the new depot, and a new schedule on the K & S. A., giving opportunity for citizens of Menifee and Montgomery to transact business with each other and return home on same day. L. C. McCormick and C. H. Petry will complete their work with the Fiscal Court relative to purchase of new machinery for repairs of our pipes. The Club through its committee, D. N. Young and others, stand ready to aid the Fair Company in perfecting arrangements for the Fair. Interest was shown in the Public Building, as to when work is to begin, and the use of Kentucky Free-stone in its construction.

Recent Words of Commendation from Kentucky.

"It was an address so faultless in style, so fraught with brilliant flashes of wit, so dignified in its presentation, so lofty in purpose, appealing so earnestly in the higher nature, that it will stand out as one of the few great speeches to be heard in a lifetime."

"I have heard some of the ablest temperance lecturers in this country, but, all things considered, I think I have never heard the equal of Mr. Fanning."—Rev. C. C. Fisher.

"Mr. Fanning was with us two weeks and was a great factor in our fight. Wise, careful, aggressive, full of tact, he is the best equipped man in America today to lead an anti-saloon fight."—R. H. Crossfield, D. D., Lexington, Ky.

Rock for Pike.

On Saturday the Bourbon Fiscal Court let contracts for rock on various piers. The price was the lowest per rod at which any road has been worked for years, ranging from \$5.75 to \$9.75, the latter being for crushed rock on the two main thoroughfares of the county, the specifications calling for the rolling of the rock as it is placed in position.

We note: Paris to Georgetown, \$2; Paris to Winchester, \$9; North Middletown to Mt. Sterling, \$6.50; same to Winchester, \$6.50; Little Rock to Mt. Sterling, \$6.50; Paris to North Middletown and Mayville to Lexington, the former at \$9, the latter at \$9.75 for crushed rock.

Gas Coal.

Mat. C. Clay on Sunday went to Chicago hoping to close the sale of a ship load of camel coal from the Willmarth mine to a gas company in England. Several months ago a test shipment was made. The result was so satisfactory that Mr. Clay hopes to make this deal. The coal is to be used in enriching the gas made in London.

FIGURES IN ARTISTIC ROMANCE.

Church After Piece the Center of Interesting Love Story.

There is perhaps no more romantic episode in art than the love of Fra Filippo Lippi for the little nun, Lucrezia Buti, and romantic, too, is the history of the altar piece painted for her convent church in Prato. Fra Filippo, who had been commissioned to decorate this altar, asked the abess to allow the timid nun to stand as his model for St. Margaret. The abess consented (this circumstance itself speaks for the curious manners of the times), and thus in the long hours of posing and tete-a-tete in intimacy sprang up between the painter and under cover of the crowd, Fra Filippo carried off the no longer unwilling Lucrezia and she went to dwell in his house, where her son Filippo was born. The affair caused much talk, even in those days, the more so that several of Lucrezia's sister nuns followed her example and Filippo's house became the center of revolt. The pope's indignation and that of the powerful Medici were finally invoked, with the result that Lucrezia and her companions were forced to return to the convent, and by a curious irony of fate they were put to display before the very picture which had been the cause of their downfall. This altar piece now hangs in the municipal gallery of Prato and is known as the "Matrona della Chiesa."—Helen Zimmern in Metropolitan.

BORDERED ON THE BARBASTIC.

Barber's Comment Certainly Not Remarkable for Tact.

Bentley had been out late the night before, or rather, he had stayed in late in a little affair at bridge, and about all he had left to show for it in the morning was an old-fashioned away-from-home-made headache. In hope of relief, he had sought his old friend the barber, and the latter had been busy on Bentley's head and face for the past hour.

"By jove! Karl," said Bentley, as the barber rubbed the top of his head, "that feels mighty good, I can tell you. The man who invented massage was not only a genius, but a benefactor to the whole human race. They ought to put up a statue to him. There's nothing like it when a fellow feels seedy. There's only one trouble about it."

"—Vot las it," asked Karl, hoping that perhaps he might overcome the difficulty.

"Why, it's all on the outside," said Bentley. "If there were only some apparatus that would enable you to get inside a fellow's head and clear out the pains of the morning after, what a blessing it would be."

"Vell," said Karl, "I think that maybe some day your vacuum cleaner for the head will do just what you want. Harpers Weekly."

Not to Be Forgotten.

Mr. Hammond's face was so ugly as to be almost grotesque, although nobody ever thought about his looks after he had been talking. "If I had known I was one of the homeliest people in the world I might have been surprised at a remark made by old Pops to the body-servant of one of my southern friends," he once said.

"I hadn't seen Pops for 15 years, and as I had grown from a boy to a man in that time, I did not expect him to remember me, but he said: 'Howdy, Marce Hammond, sah! the moment he caught sight of me.'"

"So you remember me, Pops," I said.

"'Con'tdnt nebber forget yo' face, Marce Hammond, sah! grined Pops. 'It's no kinder complicated.'"

YOUTH'S COMPANION.

Remunerative.

"In the sheep raising district of England," remarked an Englishman now living in New York, "there was an old man who used to wander about picking up and selling wool which the sheep carried on their backs by rubbing against the hedges. The old fellow was somewhat of a hurr in the neighborhood, but he stuck to his work, mindingful of Jews, wandering miles over the downs every day—silent, absorbed, intiring."

"Well, how much do you suppose that old boy laid when he died?" said game, now."

"One thousand pounds," opined one auditor.

"Five hundred," said another.

The raconteur shook his head.

"Not a damned cent," he said.

Idea by No Means New.

The object of New York's newest shub is to eat wisely but not too well. That is, to educate housewives in the science of selection. But this idea is as old as the hills and was tried by Boche years ago with more or less failure. Clubs of middle class women are all over the United States now and one can determine their value to society by harkening back to the old days of the simple life when eating and the preparation of food was not the main object and the servant problem had not started on its wild career.

Approval.

"Do you think it is an advantage for a young slinger to go abroad to study?" "Certainly not if it's any advantage," answered Mr. Curoso. "But it's mighty undesirable of the home folks and the neighbors."

They All Do.

"What kind of a lunch did she serve at night?" "I thought it was all right, but she apologized for it just the same."—Detroit Free Press.

Democratic State Central Committee Selects Lexington as Permanent Headquarters.

The Democratic State Central Committee met at Lexington on Friday. The most important business was the adoption of a resolution creating a committee to organize the State campaign for the election of members of the Legislature. State Senator Thomas A. Combs was elected Chairman of this committee with power to select the six other members, and Lexington was chosen as the place for the committee's headquarters.

This resolution passed by a vote of 7 to 4. The committee adjourned to meet again in Louisville on April 28 in accordance with the call of Chairman Prewitt. The committee was called to order by R. G. Phillips, secretary. The rollcall showed the following members present: J. W. Pugh, State-at-large; N. Powell Taylor, Second district; T. J. Moore, Fourth; W. O. Head, Fifth; J. A. Donaldson, Sixth; T. A. Combs, Seventh; J. A. Sullivan, Eighth; W. A. Adams, Ninth; Henry M. Cox, Tenth; and Woodson May, Eleventh.

The proxy of W. A. Berry, of the First district was held by W. O. Head, making eleven votes. J. R. Mallory, of the Third district, was absent and it was understood he was opposed to the proposed action of the meeting in the absence of Chairman Prewitt.

W. O. Head, of Louisville then offered a motion that the business be taken up in its regular order. This motion was voted down, but it gave Mr. Head an opportunity to express his objections to the adoption of the resolution. He declared that the proposed action would tend to increase factional differences in the party and urged that action on the resolution be postponed until Chairman Prewitt returned and thus show due dif-

ference to the committee's chairman. The resolution was adopted by a vote of 7 to 4.

Offers Reward for Forger.

The Lexington Herald recently published a communication signed "Stephen Foster," which purports to show the ill effects of leprosy in Midway. It proves to have been a forgery and the Herald offers a reward of \$100. for

discovery of the perpetrator. Gerald says:

There is, we hope, as little need for us to express the profound regret and chagrin we feel having been led into what seems the inexcusable error of publishing that first communication. It was taken to be a bona fide communication by a responsible person.

We hope the author of it is discovered and punished. If he is discovered he will be punished. His identity made public, we trust further, by being sent to the penitentiary, though we are not certain as yet whether he has been committed was in law or in equity. It is a crime far blacker than many of the crimes which are committed in the city.

The original communication was sent to the Hon. Robert Franklin, Commonwealth's Attorney for the district in which Bedford county, with the request that he bring the matter to the attention of the grand jury. We offer a reward of \$100 for the recovery and conviction of the author of the communication, and his discovery and such proof as to justify us in publishing the same.

We do this not only through
desire to expiate as far as in

OUR APPORTIONMENT.

Christian Church Bible Schools
Montgomery County, Ky.

Attention! \$25,000 to endow a Chair of Pedagogy in College of the Bible is our special centennial enterprise. We of this county are asked to give of this amount at least \$340. Will we do it? Is there any so disloyal to our great college that has been so loyal, and the Christ who has done all for us, as to say "never?"

The Christian Church Bible Schools of the county are Mt. Sterling, Somerset, Camargo, Peyton, Lick, Corinth, and Antioch. Will these schools give this amount? We earnestly call upon each school to do its part. Will not the pupils, the teachers, the officers of these schools take hold of this matter in real earnest? This is a time when real christian men and women are needed. What are you? Somerset and Camargo will each raise its apportionment. Who will be next to say as much?

In His name,

Wm. H. Cord,
County President.

91 Majority.

In the Clark county, O., (including Springfield) local option election the majority was 91 (instead of 11 as reported) for the "drys." Total vote, 17,459 or 35% more than was cast in the Presidential election.

Real Estate.

H. Clay McKee has for sale and rent, dwellings, business property, farms, vacant lots. 31-47

The Supreme Court of Virginia has declared the local option election held in Fredericksburg last May valid. This is the first time Fredericksburg has been "dry" in its history.

Costly Popularity.

France's cruiser Lecc. Gambetta is named after the famous politician, who died on December 31, 1882. In the times of his intense popularity Gambetta had an experience which he was wont to tell against himself. In Paris admirers unlocked his horses and dragged the carriage to his house. Gambetta would carry this with an air of pride, and he would add, with a smile: "But I never saw my horses' tails!"

New Holland Tramway System. The Dutch government has granted a concession to the Amsterdam & North Holland Tramway Company to build and operate an electric railway system in Holland. The route will be nearly 10 kilometers, running from Amsterdam north through Zaandam, a Krommenie, from Zaandijk to Wyk aan Zee, and Wormerveer to Purmerend. The Holland Development Company of Amsterdam will build the entire system.

Not Like a Hen.

"The female codfish," remarked the bouncer who had been gleaming statistics from between the covers of a patent medicine almanac, "lays more than a million eggs. Now, what do you think of that?" "I think," rejoined the Cheerful Idiot, "that it's a mighty lucky thing for the codfish that she doesn't have to cackle over every egg!"

Confusion of Poisons.

The Russians may make a mistake in putting a skull-and-cross-bones label on bottles of vodka. They will teach the simple peasant, who cannot read, to look for the poison label when he is thirsty, and who can tell how much carbolic acid, vitriol and such deadly drugs will be taken in the guise of the other poison?

Forcing the Child.

Do not force a child unduly to practice the piano, lest it acquire a distaste for the study, which both child and parent may bitterly regret in later years, says Woman's Life. It is little short of a crime to compel any form of study in a child even though it happens to have a natural talent for a particular art.

Tribute to Womanhood.

Womanhood is the most sacred thing in life. When God made worlds, and spun from His Ragera like jewels on a string planets and systems of planets, and then had called the various forms of His living creatures into being, even after He had made man, the last and greatest creative act was the happiness for the man—Exchange.

\$3,000, to the Bad.

The Winchester Sun Sentinel for the current week contains the following news item that ought to interest the taxpayers of Fayette county:

The Clark County Fiscal Court was in session nearly all of Friday morning. The first matter transacted was the election of a treasurer. The bids of the banks were opened and the Winchester Bank was the best and it was elected. The bid was \$2,635. There was sharp bidding for the treasurer-ship. The Peoples Bank offered \$1,503; the Citizens' National, \$1,531; the Clark County National, \$1,890.

Fayette county, with several times the population and wealth of Clark county, and presumably having more funds to handle, pays a salary of \$1,000 a year to its County Treasurer, while its more modest neighbor receives over \$2,000 a year for the privilege of carrying the county's funds, a net loss to our taxpayers of over \$3,000.—Lexington Leader

Waterproof Shingles.

Shingles are now made under a patented process from asbestos fiber and Portland cement. Owing to the enormous pressure under which the shingles are manufactured, it is said that they absorb, when fresh, only about five per cent. of their weight of water; and when exposed to the atmosphere for a year or two that hydration and subsequent crystallization make them absolutely impervious.

Adonis in Hard Luck.

A man once asked Thackeray to read him five shillings, which he would convert into \$20,000. Asked how, he explained that he knew a young lady with \$20,000 who he knew would marry him if he asked her, but he had pawned his teeth, and wanted five shillings to redeem them in order to propose effectively. — T. P. Weekly.

Modern Man and Charm.

Many a hard-headed business man will stop to pick up a cast horseshoe or a "lucky" farthing, and is not a bit ashamed of the funds, but pockets them with great satisfaction, comments the London Crown. It is a fact that civilization has not improved us much in relation to our quaint beliefs, and charms and amulets are collectable and interesting curios.

Wise Rats.

The depredation of rats in his chicken yard caused Harry A. Lehr of York, Pa., to spread rat poison beneath the floor of his chicken coop. Instead of eating the poison the rats removed it to different parts of the yard. The next morning it was eaten by the fowls, as a result of which Mr. Lehr's flock of chickens is largely decreased.

The First Encyclopedia.

The honor of first bringing a dictionary of general knowledge into alphabetical order belongs to Ephraim Chambers, an English Quaker, whose taste for literature was acquired in a globe-maker's studio; he stole the time belonging to his master to compose behind the shop counter the encyclopedia published in 1727.—American Review of Reviews.

Harm Done by Wrong Food.

A New York skin specialist says: "Had I to choose between the cook and the apothecary as a poisoner, I think I would not hesitate for a moment to yoke myself with the former." He goes on to say that "the board kills more than the sword." Many people eat not only the wrong foods, but too much of them.

The C. W. B. M. and Bible Schools of the Eighth District including Bath, Bourbon, Clark, Harrison, Nicholas and Montgomery meets at Paris on April 22 and 23. The missionary work occupies the first day followed at night by two addresses. We hope many schools will be represented on the second day.

On Friday afternoon at 4 o'clock, the anniversary of the crucifixion of our Lord will be observed by the celebration of the Holy Communion at the Methodist church. Good Friday is one of the days of the church year that is full of suggestion and its annual observance is well nigh universal by the Christian churches of the world. It is greatly desired that all members of the church be present at this solemn and impressive celebration and that silence and self examination be observed by all who come. A cordial invitation is extended to all christian people to be present and share in this means of grace with their Methodist friends.

No Mustaches in Alaska. Mustaches are not worn by men exposed to the severity of an Alaskan winter. They wear full beards to protect the throat and face, but keep the upper lip clean shaven. The moisture from the breath congeals so quickly that a mustache becomes imbedded in a solid cake of ice, and the face is frozen in a short time.

U. S. Supreme Court Decisions.

The U. S. Supreme Court has decided that the Kentucky Railroad Commission has no right to fix rates on interstate shipments. The rates fixed by the Commission were from 20 to 25 per cent. lower than rates fixed by the four companies involved, L. & N. Illinois Central, Southern and Q. & C. The Court also decided that Kentucky could not tax foreign warehouse receipts for Kentucky whisky shipped to Germany for the purpose of avoiding payment of State taxes thereon.

Sellinger, of Louisville, shipped 5,000 barrels to Germany to avoid the State tax.

Held Without Bail.
